# 2.0 Review of 2019 activities

2.1 Policy development to support child related services

The Department was pro-active in addressing policy issues that impact on its mandate to improve service delivery. Social Services plays a pivotal role in child protection thus the need to ensure that there are the right policies in place to protect children in care.

In 2019, Cabinet approved the Policy Framework for Regulations on Minimum Standard of Care in Children's Care Homes. The Regulation will be part of the Children Act 1982

# 2.2 Review of internal guidelines

The Department initiated the exercise to re-look at its existing guidelines and proposed changes to existing one and new guideline for both Social Services, Administration and Human Resource Section.

# 2.2.1 Social Services Division

The existing guidelines under review are:

- Adoption guideline
- Placement guideline
- Foster Care guideline

# 2.2.2 Administration and Human Resource Section

- Internal Procurement Guideline
- Administration and Finance guideline
- Human Resource internal guide

# **3.0 SOCIAL SERVICES DIVISION**

The Social Services Division has the statutory mandate for child protection matters. Its main services include the following:

- Counseling and mediation
- Child Protection Services
- Court and family Tribunal services
- Promoting rights of the disabled
- Adoption

# 3.1 Children Helpline

Social Services operate a children helpline (432 2626) on a daily basis up to 11.00pm. The helpline is manned on a rotational basis by social workers of the two main sections, Community Social Work Section and Legal and Child Protection Section.

During the year 2019, 248 calls were recorded on the helpline for intervention.

# **3.2 LEGAL SERVICE AND CHILD PROTECTION SECTION**

# **3.2.1 Child Protection Unit**

The Child Protection Unit continued to step up its effort to handle reported cases of abuse. 349 cases were recorded during the year 2019. The graph below provides the distribution of category of cases reported.

Graph No.1. Number of reported abuse cases for 2019

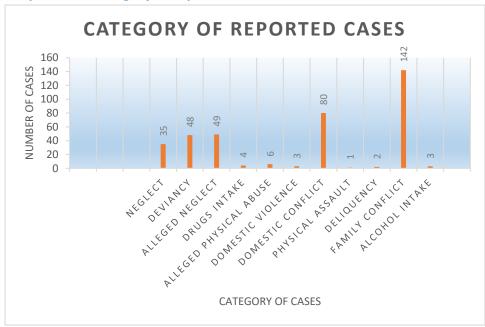

# **3.2.2 Legal Services Unit**

The Legal Services Unit is responsible to handle cases referred by the Supreme Court and Family Tribunal for investigation and submission of reports to address children related issues of custody, access, maintenance, adoption, guardianship and mediation for reconciliation in divorce matters. There were 206 cases referred for custody, Access and maintenance. Amidst the 20 cases referred by the Supreme Court, 10 cases were for adoption

# 3.3 Community Social work section

Community social work promotes the wellbeing of the community. It encompasses a variety of components focusing on economic needs, educational concerns, family challenges, collaborative and creative solutions at community level. It further emphasizes on advocacy, analysis planning and implementation of activities to support families and alleviate the difficult situation they are going through.

A slight increase in the number of deviancy and alleged neglect have been observed during the year 2019 compared to 2018. There were 142 cases of family conflicts reported and dealt with by the Family Support Unit.

# Graph No.2: Category of reported cases for 2019

# 3.4 Referrals to other ministries and agencies

The Social Services Division has an important role to assess the needs of families and clients when a case is reported or referred to the Division for intervention. The Division works in close collaboration with other agencies that are responsible to provide other identified services for the client or family. This assessment is done through the Risk Indicator Framework. A risk assessment tool is completed and the referral to other agencies serve to request for service to address the identified need.

# 3.5 Youth Residential Programme

The youth residential programme is aimed at supporting and transforming the lives of the youth with severe anti-social behavior through an educational and behavioral modification programme.

The Social Services Division started the residential programme with 9 youths in May 2018 at the Seychelles Defense Academy (SDA), Ile Perseverance. However, during the year 2019 only 5 youths were in the programme. The department encountered pertinent challenges in addressing and organizing structural activities with the youth. This was due to the absence of qualified staff and the open space without perimeter fence and security gate. The open environment became a threat that enabled the youths to abscond from the premises.

The life skills activities conducted were in agriculture and mechanical areas. This was supported with outdoor community activities and psychotherapy sessions.

During the second quarter of 2019, the residential programme moved from SDA to La Misère Beauvoir and eventually on 9<sup>th</sup> April 2019 the youths were relocated to Centre D'accueil de la Rosiere (CAR) premises in Victoria. Throughout the process, the social workers were continuously working with the different youths. The youths were discharged at intervals by order of the Family Tribunal from end of May to end of June 2019. It is to be noted that one youth is still under the care of Social services though being discharged from the programme.

# 3.6 Parenting Education programme

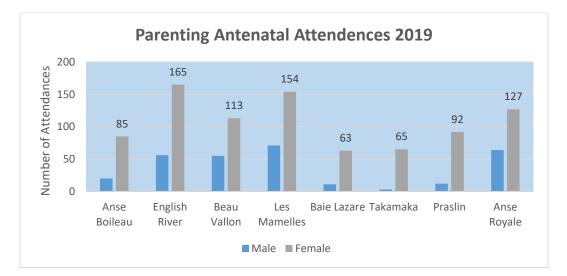

The parenting Education programme is currently under the supervision of the Principal Secretary's secretariat supported by a coordinator. Four facilitators deliver the programme on a part-time basis.

The programme is aimed at empowering parents with appropriate information and necessary skills needed to improve pregnancy and post-delivery outcomes. Parents are offered three antenatal sessions and a visit to the labour room on maternity ward. Three more sessions are offered post-delivery to build the self- esteem and increase parental confidence. The programme is offered in the following district health centers; Beau Vallon, Anse Royale, Anse Boileau, English River, Les Mamelles, Takamaka, Baie Lazare and the inner island comprising of Grand Anse and Baie Ste Anne.

# 3.6.1 Attendance for antenatal sessions

The ante-natal session is design to prepare parents for the arrival of the baby. Emphasis is placed on the psychological, psych-social needs and impact of pregnancy, childbirth and child rearing on the mother and baby.

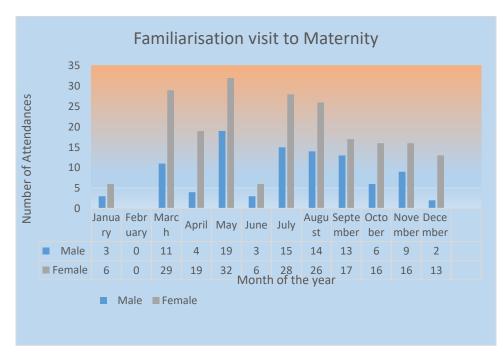

During the reporting period, 1471 ante-natal sessions were held. The programme recorded an increase in the number of sessions held and also in number of attendance of 526 compared to 945 in 2018. This is due to more advocacy and sensitization meetings held with the various nurse managers and midwives on the importance of the programme.

#### Graph No.3: Record of attendance of parenting sessions per Health Center for 2019

# 3.6.2 Familiarization visit to Maternity Unit

Most clients who are first time parents to be are given the opportunity to have a session with mid-wives in the maternity unit to familiarize themselves with the procedure and prepare them for the birthing process.

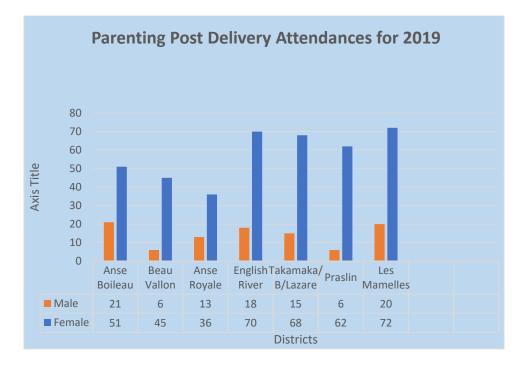

# Graph No 4: Record of visits at the maternity unit

# 3.6.3 Attendance for post-delivery sessions

The post-delivery sessions guide parents towards the social and emotional adjustment during the transition to parenthood. It further enable parents to work out strategies to address the difficulties faced during post -delivery

There was an increase in the number of sessions held during 2019. It was observed that parents are keen to attend those sessions as it gives them an opportunity to relate with the facilitators and share the various experiences on how they are using the knowledge gained to cope with their daily routine of taking care of their babies.

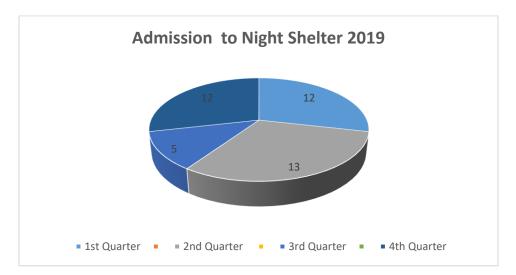

Graph No 5: Record of post –delivery sessions per Health Centre for 2019

#### 3.7 Night shelter

The mission of the night shelter is to cater for those individuals identified as being homeless due to their dysfunctionalities. The main aim is to provide psychosocial support and skills thus promote reintegration within their families. During the year 2019, there were 42 new admission to the Night Shelter.

The age range of clients admitted varied from 26 years to 67 years. The unit provided various services to the clients in terms of counselling and psychosocial support. In addition, they worked in close collaboration with other agencies namely, Ministry of Employment, APDAR, Agency for Social Protection and various industries. The Centre continues to provide a home for the homeless and work in close collaboration with the clients' family. More over the unit has been able to assist few clients in finding employment.

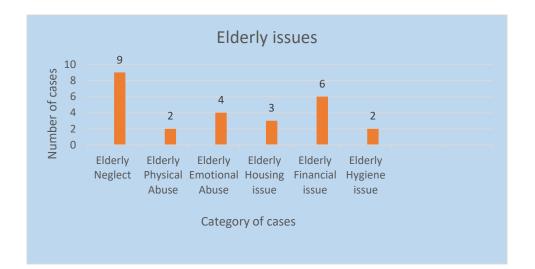

#### 3.7.1 Shuttle Service

The Ministry has invested in a shuttle service from town to the center. However, the effectiveness of the shuttle service has been very poor. Only 5 clients were admitted to the Shelter via this service compared to the number of self - admission being 37.

#### 3.8 Elderly issues

Social services addressed multiple problems affecting the elderly at community level. These issues ranged from financial abuse to neglect. It is to be noted that apart from addressing elderly issues, several visits were undertaken.

#### Graph 6: shows reported cases of elderly abuse during the year 2019

# 4.0 Social Affairs Department representation on Boards and Committees

The Social Affairs has a crucial role to play in contributing inputs on different boards and committees for the wellbeing of various population groups. In addition, the Department is often called upon to contribute towards other national and international reports.

# NOTE: Staff of Residential Programme towards end of 2019 had dwindled to 3

# 6.1 Staff movement

Staffing remained a challenge throughout the year. There has been outward movement of staffs, moving to other sectors whilst others left the service for disciplinary reasons. Staff of the Youth Residential Programme was seconded to the Children's Homes due to the programme being on hold.

The department re-organized itself to ensure that service was not affected.

There was recruitment of new staff for both Social Services Section and the Administration Unit.

# 6.2 Training and professional development

Staff benefitted from training as per the expressed need to enhance skills and improve productivity so as to help the organization fulfill its mandate. Staff benefitted from training in Customer Excellence Service and Access Computer training.

# 7.0 Budget Overview

The Social Affairs Department received an initial budget of SR29, 977, 420.72 for 2019.

Total budget spending as at end of 31st December 2019 for the four programmes was 28,222,982.63 representing 94.1% of the initial budget. The savings was from personnel emoluments vote due to high staff turnover and other budgeted posts that remained vacant as at 31 December 2019.

# 8.0 Challenges

During 2019, the Social Affairs Department have faced diverse challenges as listed below:

- Lack of specialized services to meet the increasing needs of complex cases
- Poor engagement in work related activities by certain staff member
- Managing and responding to the high public expectation
- Limited support of external partners to address pressing issues affecting clients
- Difficulty to fill key positions in the department to assist with essential tasks
- Resistance and lack of cooperation from certain involuntary clients
- Unavailability of physical infrastructure to run programs for the at risk youths.

#### 9.0 Conclusion

The department appreciates the collaboration of other entities of the ministry and partners that have supported the work of the department to respond effectively to the emerging societal needs. As a result, numerous families and children have been assisted despite the challenges illustrated above. The department remains committed and steadfast to deliver on its mandate to empower families, alleviate distress and restore social functioning.
